

AGENDA FOR LORCA LIVE 2019

08.30-10.00

Registration and meet our innovators

10.00-10.10

Welcome to LORCA Live

Andrew Roughan, Managing Director, Plexal

Lydia Ragoonanan, LORCA Programme Director

10.10-10.20

Why put trust at the centre of cyber innovation?

Professor Paul Taylor, Psychologist, Behavioural Scientist,

Director of the Centre for Research and Evidence on Security Threats (CREST)

10.20-10.30

Maintaining trust in a changing geopolitical landscape

Robert Hannigan, Chair of LORCA, Industry Advisory Board and former Director of GCHQ

10.30-11.10

Trust in autonomous vehicles: The intersection of cybersecurity and mobility

How prepared are we from a security perspective, for vehicles to become both autonomous and connected?

What do innovators make of the new cybersecurity standard for self-driving car technology?

And how do we see innovators, industry and regulators working together to make our increasingly connected cars worthy of our trust?

Chair Roni Zehavi, CEO, CyberSpark

Panellists 1] Gavin Poole, CEO, Here East

2] Alex Cowan, CEO, RazorSecur

3] Professor Carsten Maple, Professor of Cyber Systems Engineering,
Director for Cyber Security Research WMG Cyber Security Centre
University of Warwick

4] Balazs Csuvar, CAV Lead, DG Cities Ltd

11.10-11.15

LORCA Video

A short video about LORCA's work with the UK's most promising cyber innovators. Introduced by Stephen Wray, Director of Cyber Risk Services, Deloitte.

11.15-11.45

Break

11.50-12.30

Me, myself and AI: Building trust in online identities

In a world of deep fakes, avatars, poetry-generating AI and humanistic robots, what rights will people have over false representations of themselves?

How can we tell if we're speaking to or looking at a real person, and what does that uncertainty mean for levels of trust in society?

Finally, what innovations are emerging that will enable people to have control over who accesses and uses their data, and when?

Chair Ghislaine Boddington, Creative Director, body>data>space / University of Greenwich

Panellists 1] Mark Briers, Programme Director for defence and security and co-chair of the programme committee, Alan Turing Institute
2] Charles Kriel, Specialist Advisor to the DCMS Select Committee at House of Commons / Founder, Kriel.Agency
3] Katja Bego, Senior Researcher, Nesta
4] Paul Ferris, Founder, ObjectTech

12.30-13.15

Keynote Rachel Botsman

Award-winning author, Ted Talk speaker and world expert on trust and technology.

13.15-13.30

Keynote Q&A

13.30-14.30

Lunch

14.35-15.05**Your doctor will take your data now: Preparing for the digital healthcare revolution**

We have a huge opportunity to transform early intervention and save lives if we embrace the digitalisation of health.

But while more efficient sharing of data between healthcare professionals and the public could unlock new opportunities, what are the security risks?

And if we want the public to opt in to this brave new world, what are we doing to protect their privacy?

Chair Russell Gundry, Head of Innovation Strategy, Plexal

Panellists 1] Dan Jeffrey, Digital Director, NHS Digital

2] Tom Livesey, CTO, Thriva

3] Sian John MBE, EMEA chief Security Advisor, Microsoft

4] Tim Croy, Founder, Ampliphae

**15.10-15.25****Establishing new British-German cyber cooperation*****Briefing about the UK-Hub of the Cyber-Security Council Germany***

Speakers 1] Hans-Wilhelm Dünn, President, Cyber-Security Council Germany

2] Cameron Bell, Chief Innovation Officer, Hunter Bell Innovation

3] Nicolaus von Rintelen, Member of the Supervisory Board, Virtual Solution AG

15.25-16.05**What price for trust: How executive boards are making decisions on cyber spend**

This session will explore the characteristics of trust, how these play out in the commercial environment and how boards are incorporating the value of trust into their spending decisions.

We'll explore questions such as:

Is there a relationship between consumer or shareholder perceptions of digital trust and how boards make cybersecurity spending decisions?

How might large organisations find the right balance to inspire confidence, but not over-engineer solutions?

Chair: Nick Coleman FIET FBCS, Global Head Cyber Security Intelligence IBM, World Economic Forum Global Future Council 2018-2019 term

Panellists 1] Sharon Barber, CSO, Lloyds Banking Group
 2] Margarete McGrath, chief digital officer, Dell EMC
 3] David Chinn, Senior Partner, McKinsey & Company

**16.05-16.15****How data has become our friend and foe**

Sir Robert Wainwright, Partner, Deloitte

16.15-16.30**Closing Remarks**

Dr Godfrey Gaston, CSIT Director, Queen's University Belfast

16.30-17.30**Networking**

Stick around to network with attendees and LORCA's innovators

**To register, email your name
and company to events@plexal.com**
